

Science Camp

Calendar 2010

Here's Just a Sample of Some of the Exciting Activities Planned for Each Themed Week!

	Mon	Tue	Wed	Thu	Fri
Week 1 June 21-25 Life Science Week	21 	22	23	24	25 
Try your hand at dissection, solve a forensics mystery, and learn how to care for your very own take-home organism!					
Week 2 June 28-July 2 Chemistry Week	28 	29	30	1	2 
Make your own battery, eat astronaut ice-cream, and create cool images with thermal paper!					
Week 3 July 5-9 Space and Motion Week	5 	6	7	8	9 
Launch a potato gun, walk on a bed of nails, and build a water rocket!					
Week 4 July 12-16 Earth Week	12 	13	14	15	16 
Grow your own crystal garden, make paper from recycled materials, and create a take-home ecosystem in a bottle!
